Sustainable & Beautifully Engineered Bamboo

AUSTRALIA'S LARGEST SUPPLIER OF ENGINEERED AND SOLID BAMBOO

www.bamboobuildingproducts.com.au

WHY BAMBOO

The demand for High Quality Engineered & Solid Bamboo is growing considerably every year as consumers demand environmentally sustainable alternatives to traditional timber products.

Bamboo is extremely fast growing being re-harvested every 3-5 year & absorbs 35% more Carbon than trees. Fast growth and abundant availability makes bamboo perfect for almost any building application.

Bamboo's Environmental credentials are unquestionable and with good reason, it's often called 'the building material of the future'.

Bamboo is the most underutilized building product in Australia – but not for long.

Bamboo Building Products is an Australian owned supplier of Sustainable and Engineered Bamboo Building Products.

Engineered Bamboo is a genuine and sustainable alternative to Timber products.

ABOUT US

Our expertise in sustainable bamboo panels and a wide array of bamboo products is unparalleled. We are knowledgeable and passionate about what we do and we look forward to sharing this with you.

Bamboo Building Products Vision is to educate Australians on the benefits of using sustainable, high quality Engineered & Solid Bamboo and in having our products specified in their next project.

We are committed in bringing to the market new and innovative products that are beautiful & functional.

PRODUCT RANGE

BBP stock an extensive range of products including Wall & Ceiling Linings, Decking, Cladding, Screens / Fencing & Benchtops.

We custom make products to suit our individual client's needs.

The Groove panel is 2900 long, 96mm wide and 10 mm thick with a rounded groove which is 6 mm wide and 3 mm deep with a 6 mm gap between grooves.

SOLID COMMERCIAL GRADE BAMBOO DECKING

Bamboo Decking that out performs all other decking.

Harder than almost any other decking material. - often referred to as "Green Steel".

Fire Rated - Will not warp or bleed, is termite Proof. Quick install with our stainless clip and screw system.

Low Thermal absorption- won't burn your feet. Luxurious 139 x 18 mm

Pre-finished decking. Easy to maintain - no nails to punch - simply re-oil as required.

25 year structural warranty

LAMINATED BAMBOO SCREENING

Laminated strand woven bamboo slats or posts in various sizes from 20 x 20 mm to 150 x 150 mm with or without aluminium powder coated rails.

Strong Slats, low fade rate, won't warp, buckle or bleed, pre finished in UV stabilised Danish WOCA oil. Standard and Custom sizes available

10 year structural warranty

EXTERNAL CLADDING

Fire Rated & Pre Finished exterior or Interior feature wall or ceiling cladding. Various profiles and sizes available. Made from Strand Woven, compressed and baked bamboo.

Our cladding is extremely hard and easy to install using our very simple clip lock T & G system - no nails.

The perfect alternative to timber - won't warp or rot and is slow fading.

Termite and vermin proof and requires very minimal maintenance simply re-oil as required.

Our cladding is perfect for entrances, patio or veranda ceilings, office fit outs, hotels, restaurant's or as a feature wall.

20 year structural warranty.

POOL & BOUNDARY FENCING

The 'Hybrid Fence' is Australian-designed and an Australian first. Designed by us and manufactured to meet AS1926.1-2012.

The 'Hybrid Fence' is the only off-the-shelf fencing and gate system of its kind available in Australia.

We've combined the natural beauty and strength of strand-woven UV-treated bamboo slats with delicate powder-coated aluminium to create a stunning and functional alternative. The natural bamboo slats and black aluminium rails will work harmoniously with your landscaping and building's design. Our panels and gates use commonly available 38 x 25mm brackets, 50 x 50mm posts, standard hinges and locks.

10 year structural warranty.
